Dr. Christie's Galvanic Rings and Mag-

netic Fluid.

Dr. Christie's Galvanic Rings and Magnetic Fluid.

This remarkable invention, which has received the almost universal approbation of the medical profession of Great Britain, comprises an entirely new application of Galvanism, as a remedial agent by means of which the ordinary Galvanic Batteries, Electric and Magnetic Machines, &c. are entirely, dispensed with, and the mysterious power of Galvanism applied without any of the objections which are inseparable from the general mode now in use.

The Galvanic Rings have been used with entire success in all eases of rheumatism, acute or chronic, applying to the head, face, or limbs; gout, tic-doloreux, toothache, bronchitis, vertigo, nervous or sick headache, indigestion, paralysis, palay, epilepsy, fits, cramp, palpitation of the heart, apoplexy, stiliness of the joints, spinal complaints, lumbago, neuralgis, nervous tremors, dizziness of the head, pains in the chest and side, general debility, deficiency of nervous and physical energy, and all nervous disorders. In cases of confirmed dyspepsia, which is simply a nervous derangement of the digestive organs, they have been been found equally successful. Their extraordinary effects upon the system must be witnessed to be belived, and as a certain preventive for the preceding complaints they are equally recommended. The rings are of different prices, being made of all sizes, and of various ornamental patterns, and can be worn by the most delicate female without the slightest inconvenience. In fact, the sensation is rather adapted to the waist, arms, wrists, limbs, ankles, or adapted to the waist, arms, wrists, limbs, ankles, or

slightest inconvenience. In fact, the sensation is ra her agreeable than otherwise.

The Galvanic Belts, Brackets, Barns, Garters, Necklaces, &c. &c.—These articles are adapted to the waist, arms, wrists, limbs, ankles, or any part of the body with perfect convenience. The Galvanic Necklaces are used with greater benefit in cases of broachitis or affections of the throat generally; also, in cases of nervous deafness; and with almost uniform success as preventive for appoplexy, epileptic fits, and similar complaints.

Christie's Magnetic Pluid is used in connexion with the Galvanic Rings, and all their modifications. This composition has been pronounced by the French Chemists to be one of the most extraordinary discoveries of medern science. Full explanations and directions accompany it. The combined inventions are in every way perfectly barmless, they are at prices within reach of all, and the discovere only requests a fair trial, as a test of their surprising efficacy and permanent benefit.

CHRISTIE'S GALVANIC STRANDTERNINE PLASTERS. These articles form another valuable application of the mysterious influence of Galvaniam. They are confidently recommended as a valuable addition in the speedy cure of rheumatism, acute or chronic; in all nervous complaints, and as a positive remedy in cases of pain and weakness in the chest or back, pain in the side, in asthmatic affections and in weakness or oppression of the pulmonary organs. In spinal complaints their effects are of the most decided character, and they have often been used with complete success. They are also of the greatest advantage in pains and weakness of the breast, and are highly recommended for many of those complaints to which females are especially liable. As an effectual means for strengthening Plasters will be found of great and permanent advantage.

(Trandictions and in all affections of the chest generally, the Galvanic Strengthening Plasters will be found of great and permanent advantage.

tess will be found of great and permanents tage.

CAUTION. The celebrity and success of these articles have caused them to be counterfeited by unpriveleded persons. Dr. Christic cautions the public against spurnous imitations. He has but one authorized agency in each city of the Union, where the genuine articles can be procured. The only agents for Washington are—

WHO WANTS A LOT OF GROUND AT A CHEAP PRICE?—The subscriber has divided his farm and haid off a tract of about 40 acres into lots of from one, tw., four, and six acres each, which he will sell at low prices and on easy terms, so that it may be within the means of any person to purchase one, and thereby to secure to timself and family a homestead. These lots are handsomely situated in a very healthy location, on a public road, about 1½ miles from the Navy Yard Bridge, on the east side of the Anacostia river.

The soil is well suited for garden purposes or the cultivation of fruit trees, and several excellent springs of water are near to them. There is also sufficient wood on each of the lots to enclose them, and timber in abundance can be had in the neighborhood to erect any building at a very low price.

Those wishing to purchase, will do well to apply soon, as they can have a choice of location, &c.

REPUBLICATION OF THE LONDON QUARTERLY REVIEW, EDINBURGH REVIEW, NORTH BRITISH REVIEW, WESTMINSTER REVIEW,

BLACK WOOD'S EDIN BURGH MAGAZINE.

THE above Periodicals are reprinted in N. York, immediately on their arrival by the British steamers, in a beautiful clear type, on fine white paper, and are faithful copies of the originals—blackwood's Magazine being an exact fac-similie of the Edinburgh edition.

The wide-spread fame of these splendid periodicals renders it needless to say much in their praise. As literary organs, they stand far in advence of any works.

odicals renders it needless to say much in their praise. As literary organs, they stand får in advance of any works of a similar stamp now published, while the political complexion of each is marked by a dignity, candor, and forbearance, not often found in works of a party charucter.

They embrace the views of the three great parties in England—Whig, Tory, and Ranicol. "Blackwood" and the "London Quarterly" are Tory, the "Edinburgh Review" Whig, and the "Westminster," Radical. The "North British Review" is of a more Religious cast, and has for its editors Sir David Brewster and Dr. Hanna, son-law of the late Dr. Chalmers of Edinburgh. Its literary articles are of the first order, and it is liberal in its polities.

The prices of the reprints are less than one-third of those of the foreign copies; and, while they are equally well got up, they afford all that advantage to the *Imerican over the English reader.
